

Environment, Safety and Health Policy

indus
TOWERS

Indus Towers is committed to protect the Environment, Safety and Health of employees, associates and contractors directly involved in its operations and physical assets.

To achieve a goal of Zero work related fatality and minimal environmental impact, Indus would take the following actions:

- *Conform with ESH related standards, rules, regulations and relevant legislations.*
- *Hazard Identification, evaluation and risk assessment in order to eliminate the hazards in Indus operations.*
- *Develop, document and implement relevant procedures.*
- *Consult and provide ESH trainings to employees, associates and contractors to promote their awareness and to understand ESH requirements.*
- *Continually improve ESH performance to reduce the work related incidents, environmental emissions, wastes and energy usage relative to the activities.*

Each employee, associate and contractor is personally responsible for implementing and maintaining the ESH management systems necessary to sustain this policy.

Chief Executive Officer

Date: 3rd September, 2012

Indus Towers believes that a strong commitment to environment safety and health will benefit all aspects of the organization.
